SUMMARY

Data Science & Machine Learning professional passionate about turning ideas into intelligent, real-world applications. Skilled in Python, Scikit-learn, LangChain, and OpenAI API, with hands-on experience building NLP pipelines and multi-agent AI — from raw data to cloud deployment. Continuously pushing from experimentation to production.

EDUCATION

B.Tech in Electronics and Communication Engineering — CGPA: **9.01/10** 2023 – Present
Madan Mohan Malaviya University of Technology, Gorakhpur, Uttar Pradesh
Minor Degree: Data Science — CGPA: **9.0/10**

TECHNICAL SKILLS

Programming Languages	: Python, SQL, Java
ML & Data Science	: ML, Deep Learning, NLP, EDA, Feature Engineering, Statistical Analysis
Frameworks & Libraries	: Scikit-Learn, Pandas, NumPy, Matplotlib, Plotly
Developer tools	: ChatGPT, Claude, Gemini, Cursor, GitHub Copilot
Generative AI & LLMs	: LangChain, Prompt Engineering, OpenAI API
Databases & Analytics	: MySQL, Power BI, Tableau, Excel
Cloud & Deployment	: Streamlit, Flask, REST APIs
Version Control	: Git, GitHub

PROJECTS

EV Motor Fault Detection - Predictive Maintenance [\[Live Demo\]](#)
Scikit-learn · Random Forest · Pandas · Streamlit · Plotly

- Developed and deployed a production-ready Industrial IoT predictive maintenance web application on Streamlit Cloud, trained on 11,000+ sensor records with 92% fault detection accuracy.
- Reduced false positive fault alerts by 18% through feature engineering, threshold optimization, and real-time predictive monitoring for industrial automation.

HealthAI - Multi Agent Personal Health Intelligence [\[Live Demo\]](#)
LangChain · OpenAI API · Streamlit · Multi-Agent AI

- Developed and deployed a scalable healthcare diagnostic web dashboard on Streamlit Cloud integrating 4 specialized AI agents for medical report analysis, symptom prediction, and personalized recommendations.
- Implemented severity-based risk alert system, lifestyle plan generation, and automated patient monitoring through LLM-powered workflows.
- Enhanced preventive healthcare accessibility using production-ready AI deployment.

TalentSynapse AI - Resume Analyzer & ATS Optimization Web Platform [\[Live Demo\]](#)
NLP · TF-IDF · Cosine Similarity · Streamlit

- Built and deployed an NLP-powered ATS resume optimization web platform on Streamlit Cloud achieving 85–92% skill extraction accuracy and 80–90% job compatibility precision.
- Improved recruiter screening efficiency by 60%+ through semantic similarity, automated candidate ranking, and intelligent skill-gap analysis.
- Developed production-grade resume parsing and job-role matching workflows for scalable career analytics.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Data Science Professional	Oct 2025
Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate	Oct 2025
